A MILITARY DRAFT IS IMMINENT!!! LEAKED MILITARY DRAFT DOCUMENTS! **Anonymous** (ID: rU/Es8S/)

Starting in July of 2024 just months before the 2024 Presidential Elections Joe Biden quietly ordered that Selective Service "Board Members" be given mandatory training for the first time since 1973 and to begin hiring thousands more of them. The training would be both in person and virtual and would go over the entire Selective Service System and what their job as Board Members would entail.

>What is a Selective Service Board Member?
They are the ones who determine who gets deferred or exempted from the Military Draft and who gets shipped off to the front lines. They are "voluntary" positions but you cannot apply for the position, only the

Governor of each state combined with the approval of the Selective Service Director (who reports directly to POTUS) can select the members of their states Selective Service Board. When Trump won the election in 2024 he decided to keep this program going and the yearly training and expansion of the Selective Service Boards has continued to grow with nearly 10k new Board Members added since.

Then in 2024 as part of the FY 2025 NDAA congress attempted to Automate the Military Draft process and include women in the draft as well. It failed that year but the following year in 2025 during the vote for the FY 2026 NDAA the vote passed (without the part about including women) and was signed into law as Section 535 which goes into effect December of 2026.

Now in 2026 congress is attempting to ram through yet another monumental change to the Selective Service System and the military again with SECTION 219 (Formally 224) which would completely integrate the Israeli Military with the United States Military through the creation of a new quasi-cabinet position titled (((Executive Agent))).

The (((Executive Agent))) would have authority over "Joint Operations" with Israeli and US military assets and personnel utilizing AUMF (Authorized Use of Military Force), AUMF is the same process that every president has used since 9/11 to bomb pretty much every country in the world and now Israel is being granted direct access to this power through their (((Executive Agent))).

On July 23rd, 2026 Selective Service released a military contract for "Software" to "Simulate" a Military Draft with the contract age being 6 - 12 months. Its worth noting that on September 11th there was also a "simulation" called Operation Vigilant Guardian and Operation Vigilant Warrior and of course most people know of Event 201 which happened in October of 2019 shortly before the Covid Hoax.
>Pic Related: Section 219 was literally written by Benjamin Netanyahu himself.

In WW2 they opened 6,000 of these draft board offices locally. It was then much more unpopular than even now. Their thoughts was it'd be more accepted if the (((local draft board))) did the approving of deferals for only bread winners or deferals for critical jobs. But then they just started everybody except the Jews and put all the women to work

I asked Grok to look at this thread to see how accurate OP is:

>No, the thread is not accurate about an imminent military draft. It mixes real, public contingency planning and administrative updates with conspiracy framing, exaggeration, and unsupported claims of an active or near-term conscription. There is no draft underway or authorized, and official statements indicate none is planned.b5b2b4

White men need to get the fuck out of Democrat run states because they would get conscripted first intentionally while non-Whites would be left unmolested by the state.
